RAJEESH KV

Software Engineer

A curious learner and creative team player, interesting in the job role of Software Developer where I can learn and utilize my understanding of coding and software development to efficiently fulfil the requirements of clients and customers. Bringing good knowledge of coding programming languages especially ASP .NET Core and ASP .Net MVC. As a new beginning, started learning Node JS and Express JS along with React JS to become a Fullstack Developer. Currently looking forward working in a Product based company
